**A PRESTIGE TOOL PLAN FOR PROFESSIONALS**

# U.S. SET BUILDING PROGRAM

The following "U.S.-Size" sets represent a unique Set Building Program to serve every mechanic — young apprentice or master technician.

Here is how the program works. An initial investment is made to own Set 1. Thereafter, additional tools are added from the Set 2 Add-on Group to eventually own Complete Set 2 . . . and so forth until Set 6 is reached.

Or you may choose to *begin* at a higher level than Set 1 . . . Complete Set 4 for example. This would include Set 1 *plus* Set 2, 3 and 4 Add-on Groups. (Trading in the "other" tools you presently own will help recoup previous tool dollars.)

It's a simple Program. And yet if followed, it will provide the *right tool* for the *right job* at the *right time*. Your *Snap-on* representative can help inventory your present tools to help you decide where to begin.

At *Snap-on*, we're helping to plan for tomorrow by serving you today.

**6100-GS-B Complete Set 1** (pictured).
Includes 141 tools in KRA-58D Tool Chest.

**6100-GS.** 141 tools only.

**Optional Storage Unit:** KRA-59C.

Start your tool set building program with this wide assortment of popular hand tools, including 1/4" and 3/8" drive components in a heavy-duty Tool Chest. This "Starter" set gives you the base upon which to build your tool inventory in the future . . . and yet it is modestly priced.

**6200B-GS-B Complete Set 2** (pictured).
Includes Set 1 plus Set 2 Add-on Group (175 tools total) in KRA-59C Tool Chest.

**6200B-GS.** 175 tools only.

**6100-GS-2 Set 2 Add-on Group.**

In addition to the tools in the previous set, Set #2 adds a 1/2" drive set . . . plus other standard and special items to handle many of your maintenance challenges. More storage space is also provided with a larger Tool Chest.

**6300B-GS-B Complete Set 3** (pictured).
Includes Sets 1 and 2 plus Set 3 Add-on Group (233 tools total) in KRA59-C Tool Chest and KRA-379A Roll Cab.

**6300B-GS.** 233 tools only.

**6100-GS-3 Set 3 Add-on Group.**

More of everything plus a Roll Cab/Tool Chest combination highlight additions to Set #3. You're now halfway toward Big Set #6 and confidently building your tool inventory. As your maintenance challenges become greater your tool selection meets your needs and that means more customer satisfaction.

**6400B-GS-B Complete Set 4** (pictured).
Includes Sets 1, 2 and 3 plus Set 4 Add-on Group (332 tools total) in KRA-59C Tool Chest, KRA-379A Roll Cab and KRA-436A Drawer Set.

**6400B-GS.** 332 tools only.

**6100-GS-4 Set 4 Add-on Group.**

More "bread and butter" items, specialty tools, body, tune-up and puller components are added to your existing tools as you move up to Set #4. Profits are building as you're now handling most repair work by having the right tool for the job. A set of three Roll Cab Drawers also provide more storage.

# 5

**6500B-GS-B Complete Set 5** (pictured). Includes Sets 1, 2, 3 and 4 plus Set 5 Add-on Group (495 tools total) in KR-537A Tool Chest and KR-557B Roll Cab.

**6500B-GS.** 495 tools only.

**6100-GS-5 Set 5 Add-on Group.**

With Set #5 you have added a prestige Roll Cab and Tool Chest combination . . . along with more tools! Featured are many more ¼", ⅜" and ½" drive tools plus a popular puller set. Your tool selection is almost complete . . . only one more step toward total tool capability.

# 6

**6600B-GS-B Complete Set 6** (pictured). Includes Sets 1, 2, 3, 4 and 5 plus Set 6 Add-on Group (625 tools total) in KR-537A Tool Chest and KR-557B Roll Cab.

**6600B-GS.** 625 tools only.

**6100-GS-6 Set 6 Add-on Group.**

Congratulations! Being a "Master Mechanic", you've now built a tool inventory complementing your ability. A large puller set, additional wrenches and other hand tools, plus Weatherhead and ¾" drive socket sets have brought you to the crest of classic style and quality. You're at the top in every respect.

# METRIC SET BUILDING PROGRAM

Like the "U.S.-Inch Size" tool sets, this "Metric Set Building Program" begins with a small Starter Set (A) and eventually builds to a Complete Set (E) of millimetre tools. Along the way, Add-on Groups are picked up . . . on a gradual, budgeted basis.

Thus, your investment dollars are spent on only those tools you need — when you need them. And they pay for themselves because you're using them on more jobs. By having the *right tool* for the *right job*, you get the job done quicker and with less effort.

Various handle and accessory options are also available for all-metric services or specialized industrial applications.

Your *Snap-on* tool specialist can help plan and budget a metric program for you. It's a step in the right direction.

*For safety sake, always keep tools clean and well-maintained.*

A

**5100A-GM-B Complete Set A** (pictured). Includes 104 tools in KRA-429B Drawer Section.

**5100A-GM.** 104 tools only.

**Set A**
